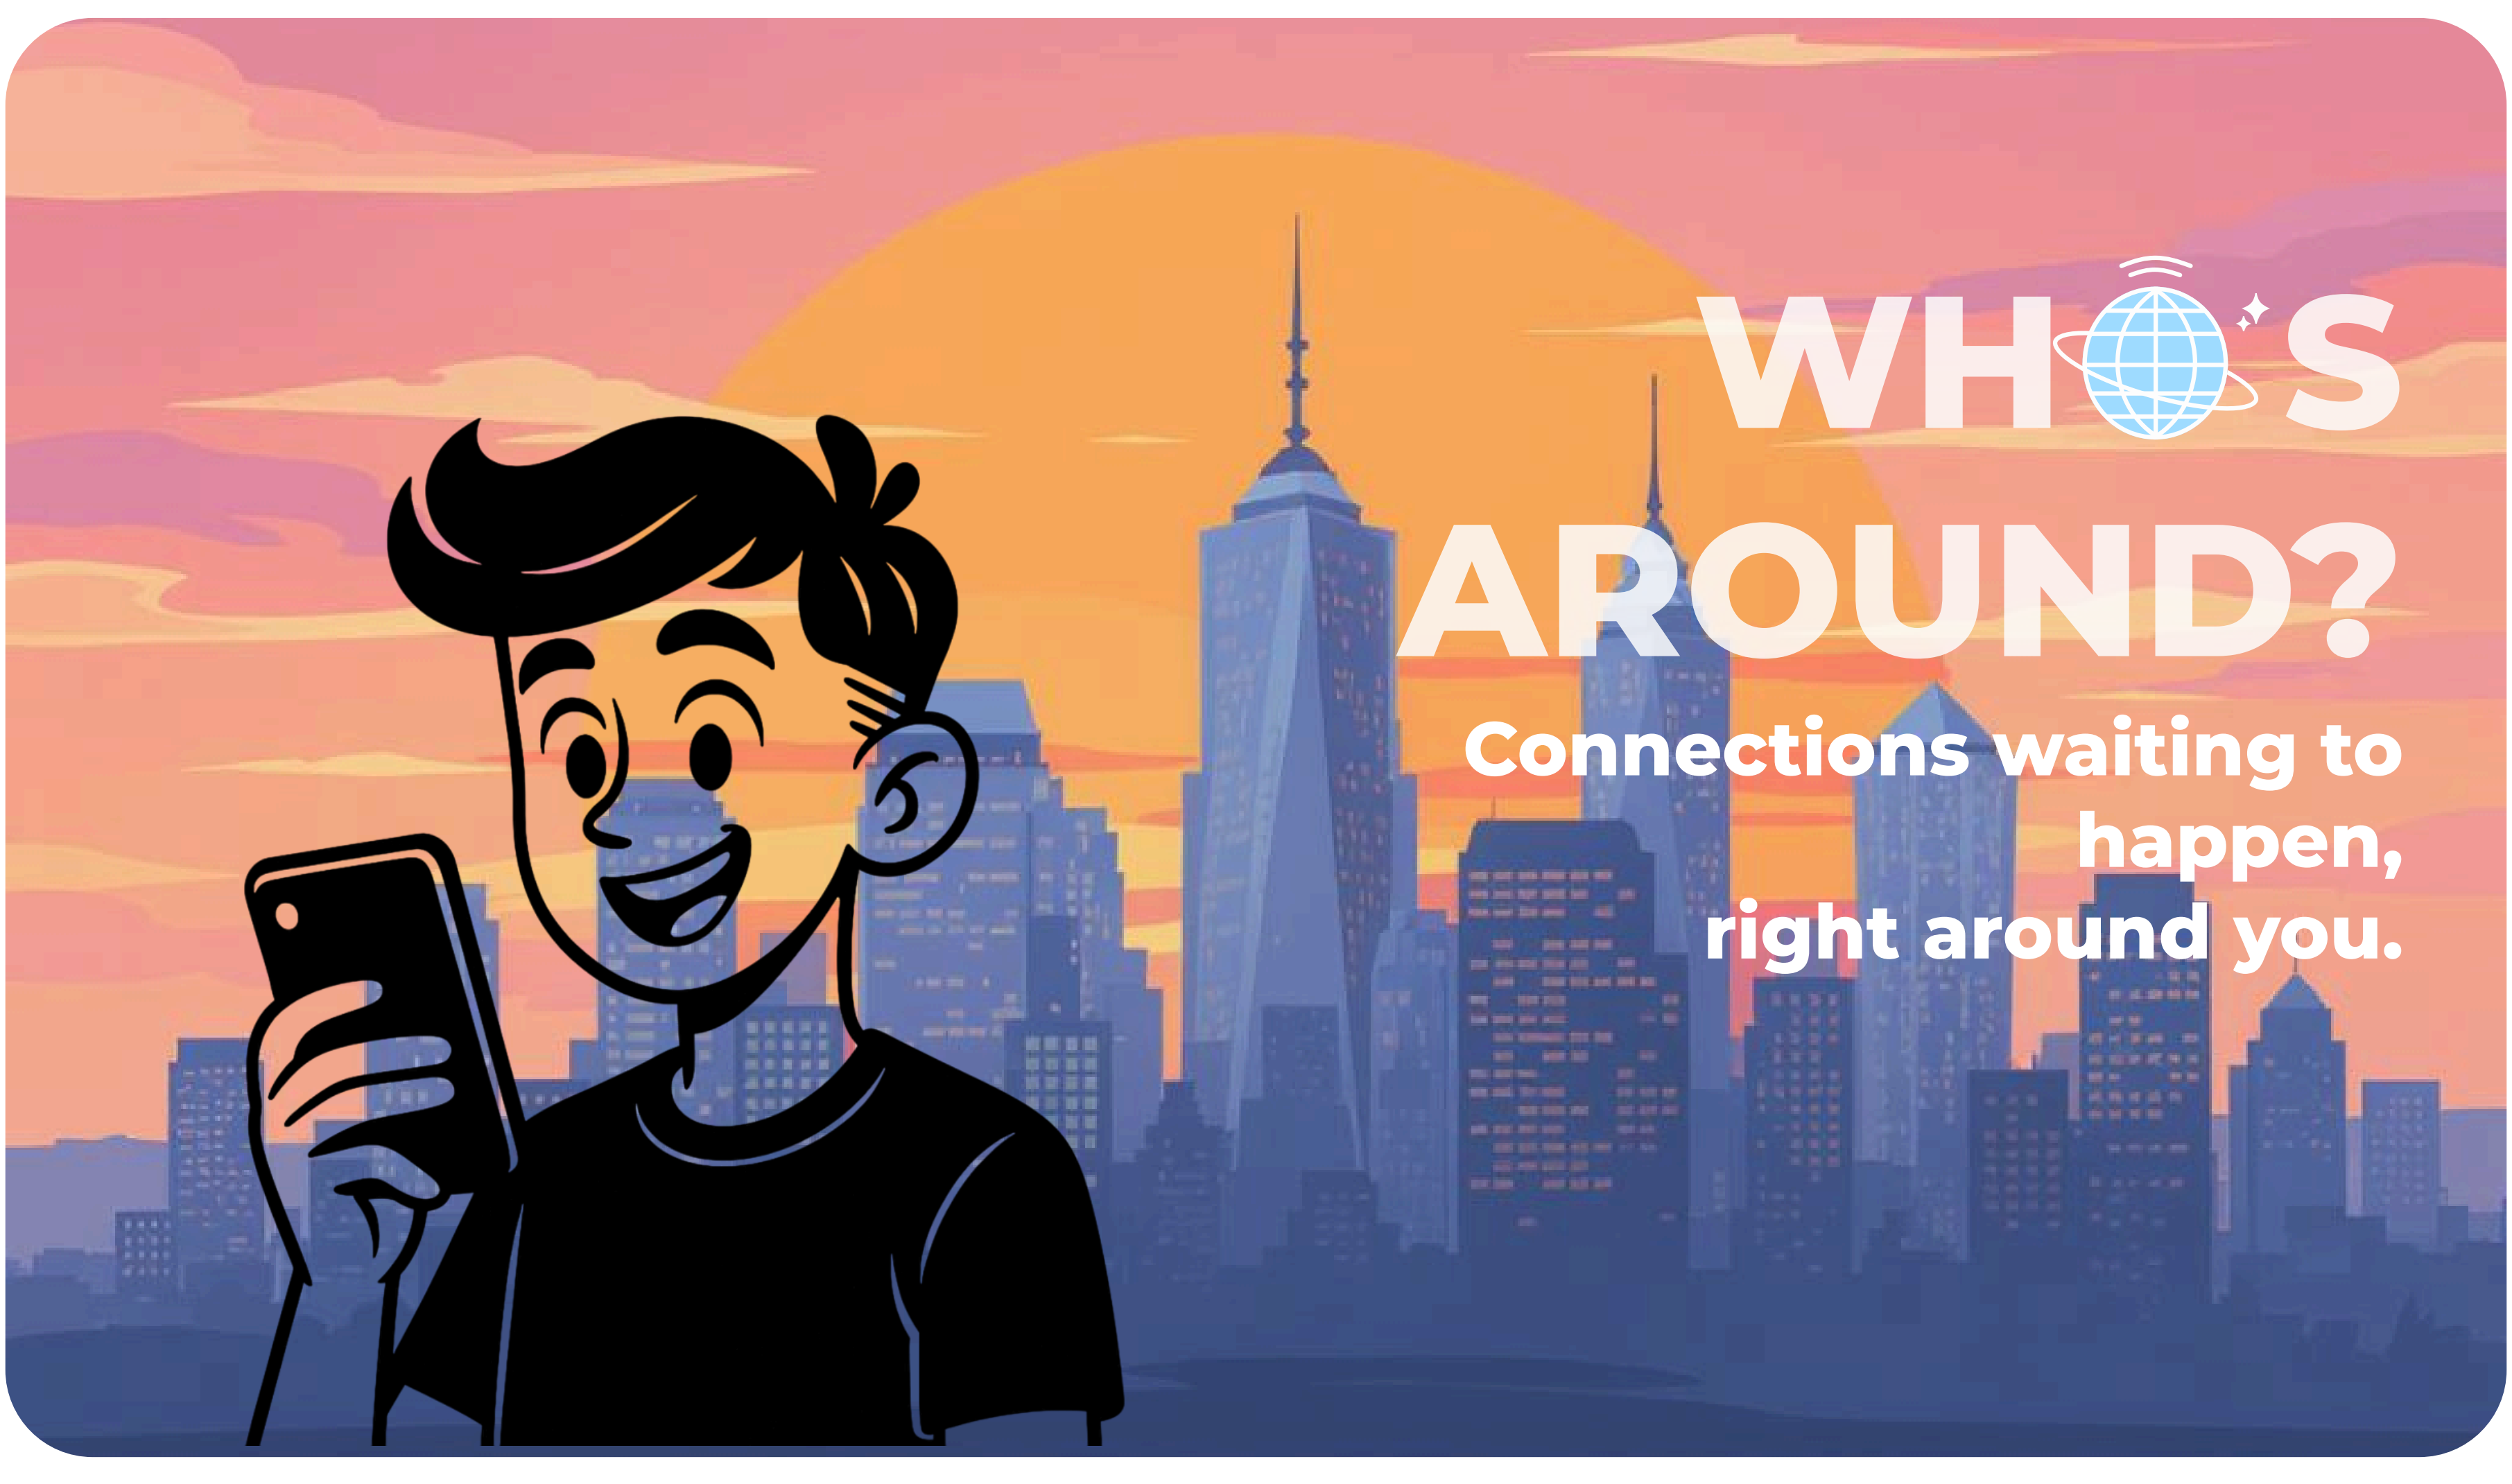
Branding the drops

DropBy's Identity & Design System



WHO'S AROUND?
Connections waiting to happen, right around you.

DropBy is how you connect without forcing it.
Whether you're grabbing coffee, chilling at a park, or working from a co-working space, DropBy lets you quietly show you're open to meeting someone nearby.
It's not about profiles or pitches, it's about shared spaces, small signals, and genuine moments that spark something real.

COLOR PALETTE

The DropBy Vibe, in Color
A calm, playful mix of colors—blues and mints to keep it chill, coral and lilac for a pop of fun, all grounded with a deep navy. Feels friendly, fresh, and easy to connect with.

FONT

Fonts that feel like home
We're going with SF Pro for iOS and Roboto for Android—because they just fit. Familiar, friendly, and easy on the eyes.

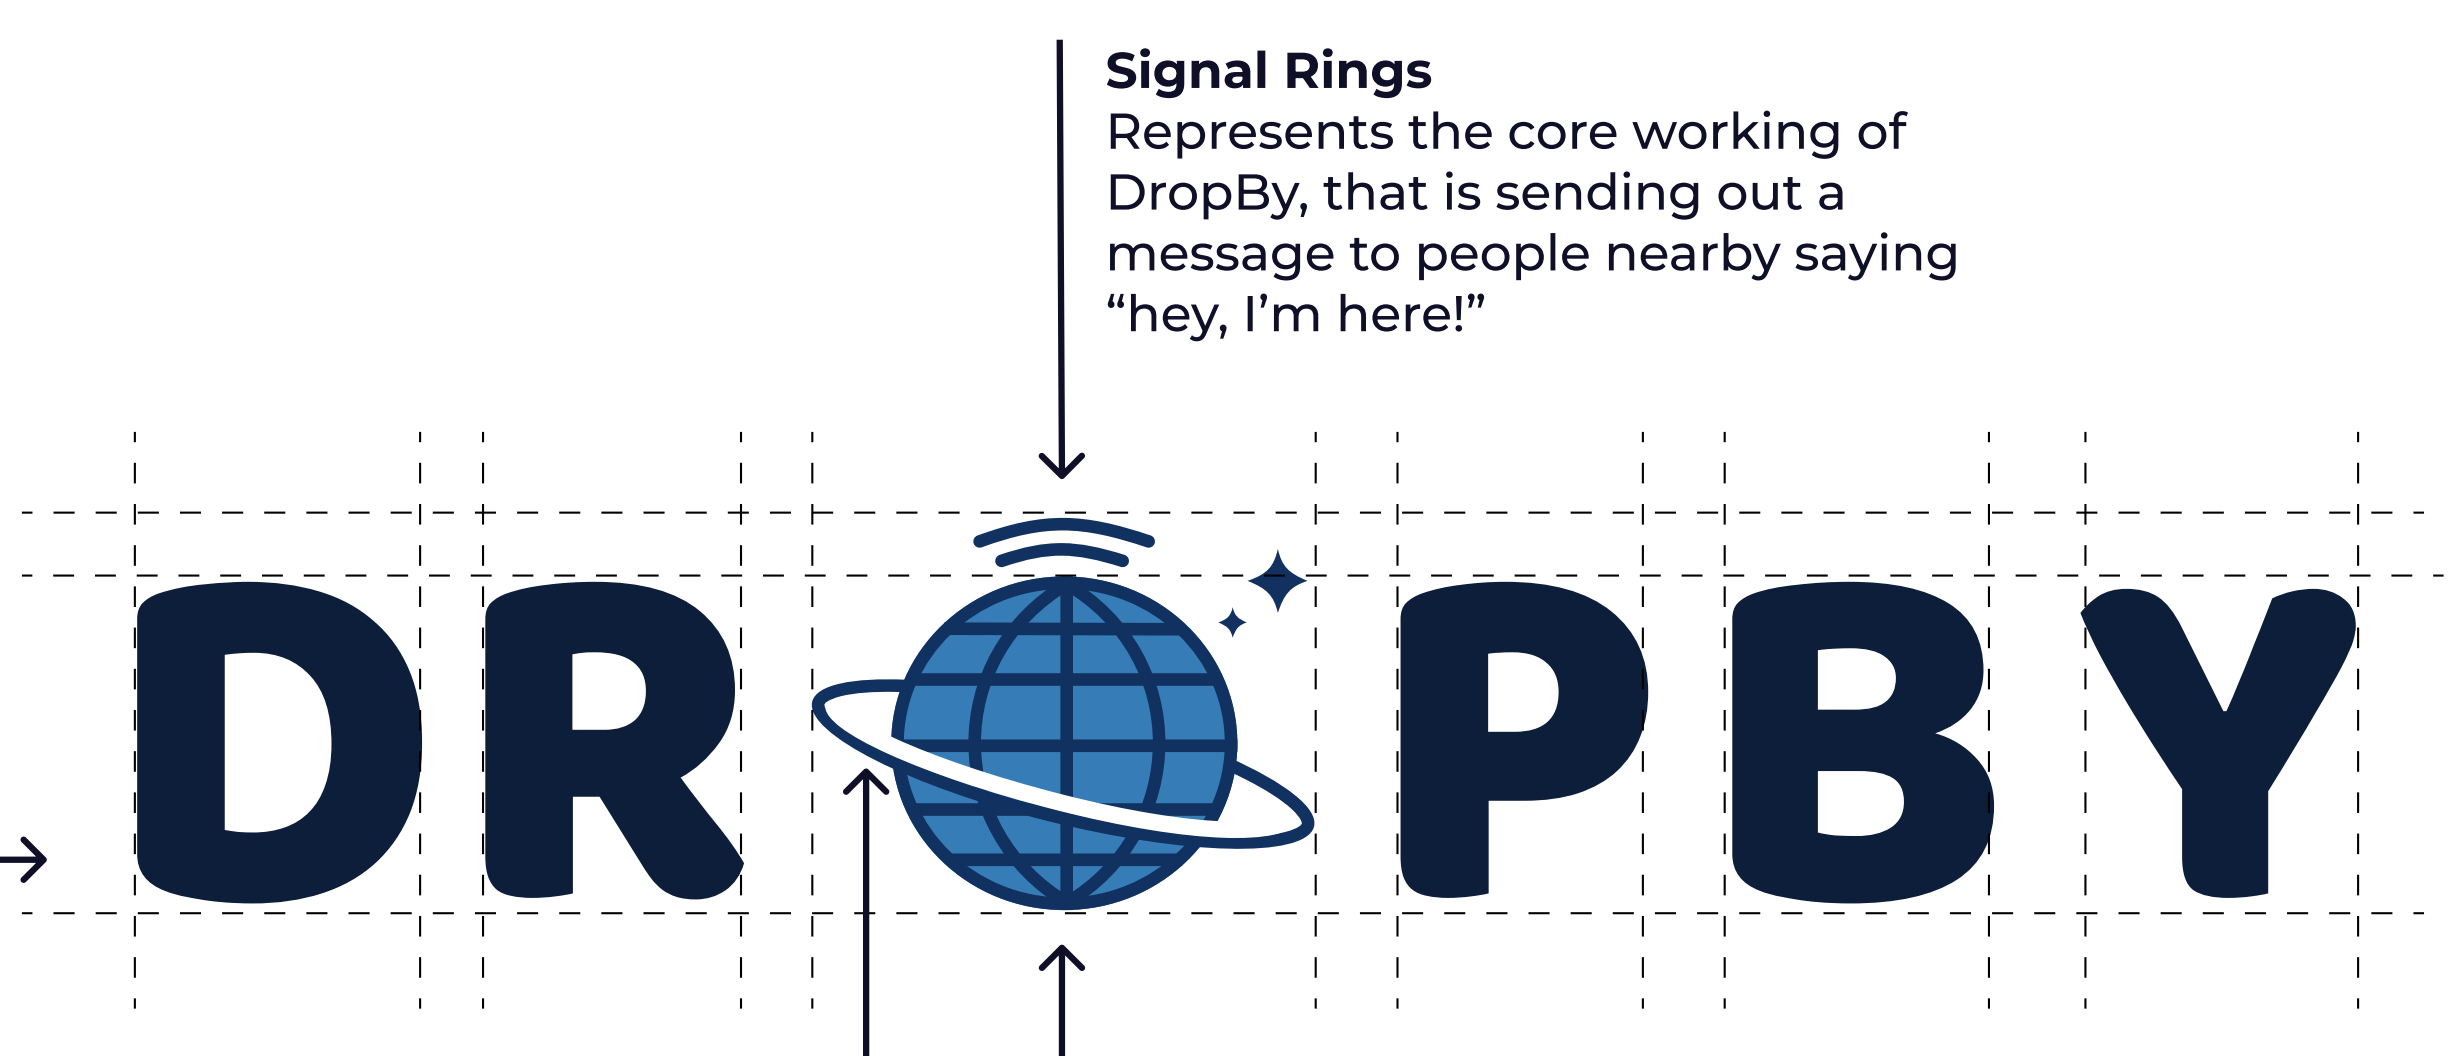
Logo Construction



Signal Rings
Represents the core working of DropBy, that is sending out a message to people nearby saying "hey, I'm here!"

Rounded Typeface
The bold, rounded font feels friendly, modern and approachable.

Orbit Ring
Represents movement and spontaneity like orbits coliding, in a sense that people meet in unexpected ways.

Globe as 'O'
Used globe as a way to represent real-world
connection and also works as a playful wordmark
